Change Request #: 16-04**

Requestor Name:	Adam Pugh	Date:	10/26/2015	Affiliation:	
Email Address:	Adam.pugh@hq.doe.gov	Phone No:	202-287-1397	DOE	X
Site Name:	Headquarters	HQ Program Office:	MA-50	Contractor	
Proposed Change:	<ol style="list-style-type: none"> 1. Add a new data element called Location Description. This data element would be 150 characters in length and placed on the IU Detail window in the required portion of the window. Sites could then use this field instead of the User Defined fields for additional location description. Headquarters CAIS support can assist sites in moving location detailed data from the User Defined data elements into this new Location Description field. 2. Combine Adequate and Fair in the Condition data element pick list into a single option called Adequate. 3. Remove the Project Priority, Design State Date and Design Complete Date from the Project module as these are no longer being used. 				
Justification:	These three items were discussed in detail at the recent CAS/CAIS User Group meeting. There was overwhelming support for each of these three enhancements
